Dear Sir/Madam,

We are writing to you from a primary school (Our students age group is 7-11) in Bergama/Izmir – TURKEY as being the 999th place in UNESCO World Heritage List.

Bergama (Pergamon) as being one of the Izmir's districts is one of the most important culture and tourism centers of the Aegean with its historical and cultural richness. Our school is placed on the most ancient part of the city and entwined with the oldest building of the city. Also, one of the buildings in our school garden that we are already using is constructed in 1860. We are using this ancient building as an "Education Museum" that have witnessed to the whole history of education in Bergama.

Therefore, as a school we are wishing to organize a project related with history and culture with another school institution in a city of UNESCO World Heritage List.

Our aim in the project is to create awareness about UNESCO World Heritage among the students, introduce the values of these cities and to raise awareness for keeping this heritage.

We are requesting from you to give information about this topic to the schools in your city, and if there will be any volunteer schools please let us know to keep in touch with them.

Thank you in advance. We are hoping to hear good news from your side.

All the best;

Turan ŞEN
Manager of 14 Eylül Primary School
